

Freestyle M.O.M.[®] and Magento[™] 2

Whether you are considering migrating to Magento 2 or have already done so you need a powerful Order and Inventory Management solution to help you take full advantage of the improvements and increased order volume you expect.

Freestyle Software offers a powerful connector to Magento 2 that will help you realize the full benefit of eCommerce's newest platform

The Freestyle Magento 2 Cart Connector allows you to:

- **Connect One or Multiple Magento 2 stores to M.O.M.** (Multichannel Order Manager), the Industry's leading solution for Fulfillment Operations
- **Download Orders** with a press of button.
- **Acknowledge** downloaded orders to update Magento 2 Order Status.
- **Create Invoices** in Magento 2 when orders are completed.
- **Create Shipments** and add tracking numbers in Magento 2 when orders are shipped.
- **Synchronized Inventory** across your Magento 2 Stores.
- **Credit Card Tokenization**, secure management of payment data
(requires purchase of [Paradox Lab's Authorize.net CIM plugin](#) for your Magento 2 store)
- **Coming Soon:** You can upload products descriptions directly to your Magento 2 stores.

M.O.M. provides you with the most comprehensive Fulfillment solution on the market today, thousands of eCommerce companies have chosen M.O.M. as their back-end solution. Combined with Magento 2 you will be able to manage every part of the fulfillment operation:

- Order Management
- Inventory Management
- Purchasing
- Promotions
- Shipping
 - Best Way = Best Value Service
 - Fastest Way = Fastest Service
- Order Tracking
- Forecasting And much more
